An SBA 504 loan is secured by a mortgage on a commercial real estate property. These loans can be used for property acquisition, construction financing, or refinancing existing debt. Unlike SBA 7(a) loans, which are secured by a lien on all corporate assets, SBA 504 loans are specifically for commercial property and long-term machinery with at least 10 years of useful life remaining. *Note: Multi-family real estate is not eligible under the SBA 504 program.*

Banks & other lenders work with Certified Development Companies (CDCs) to underwrite SBA 504 loans. Final approval is provided by the U.S. government, which also guarantees a portion of the loan. The SBA 504 program was established to ensure loan availability for U.S. small business owners. Although many lenders and CDCs can originate SBA 504 loans, working with experienced SBA 504 lenders and CDC teams is very beneficial.
